

# Fall Arrest Safety Nets

Safety nets provide a secure, tried and tested fall arrest safety system.

## Features and Benefits

- Safety nets are a collective fall arrest system
- Allow work to continue beneath unhindered
- Can be incorporated into most roof structures
- Minimise fall distances (maximum fall 2m)

Peoples Safety Ltd are a stringent follower of the FASET Three Pillar code of practice for safety net systems.

These consist of:

## Competent Product

We use only the best and most stringently tested safety net products. All of our fall arrest safety nets comply with British and European standard BS EN1263-1:2002

## Competent Rigging

Our riggers are trained to the highest level and comply with standard BS EN1263-2:2002, with many years experience behind them.

## Comprehensive Maintenance

We work very closely with our suppliers and the governing bodies in the best house keeping standards and techniques.
